LinkedIn: <https://www.linkedin.com/in/md-tanvirul-islam-340ab256/>

GitHub: <https://github.com/prodeveloper2023>

Enthusiastic and adaptable Frontend Developer with a solid foundation in HTML, CSS, and JavaScript. Eager to apply my technical skills and creative mindset to contribute to innovative web solutions. Recently completed edX Front End Development bootcamp, I bring a fresh perspective and a strong work ethic. Thriving in collaborative environments, I am excited to learn from experienced developers while contributing my passion for creating visually appealing and user-friendly interfaces.

## TECHNICAL SKILLS

JavaScript ES6+, JQuery, React.js, Node.js, CSS3, HTML5, Bootstrap, Git, GitHub, Test Development and Deployment.

## PROJECTS

### | A Portfolio Created by React |

<https://github.com/prodeveloper2023/My-React-Portfolio>

- Summary: A Portfolio Created by React
- Role: Sole author
- Tools: HTML, CSS, JavaScript, Bootstrap, React.js, Git.

### | Team Profile Generator |

[https://github.com/prodeveloper2023/Team\\_profile\\_generator](https://github.com/prodeveloper2023/Team_profile_generator)

- Summary: This GitHub repository houses a Node.js command-line application designed for managing software engineering teams. It captures input about team members and produces an HTML webpage displaying their details. Jest tests validate the functionality of the application, ensuring its accuracy and reliability.
- Role: Sole author
- Tools: HTML, CSS, JavaScript, Node.js, Git.

### | Bootstrap Portfolio |

<https://github.com/prodeveloper2023/Bootstrap-Portfolio>

<https://prodeveloper2023.github.io/Bootstrap-Portfolio/>

- Summary: A Responsive Portfolio using Html, Css and Bootstrap 5
- Role: Sole author
- Tools: HTML, CSS, Bootstrap, Git.

### | Random Password Generator |

<https://github.com/prodeveloper2023/Random-Password-Generator>  
<https://prodeveloper2023.github.io/Random-Password-Generator/>

- Summary: This application named Random-Password-Generator can be used to generate a random password based on criteria selected by the User.
- Role: Sole author
- Tools: HTML, CSS, JavaScript, Git.

#### **| Timed Coding Quiz Game |**

<https://github.com/prodeveloper2023/Timed-QuizGame>  
<https://prodeveloper2023.github.io/Timed-QuizGame/>

- Summary: The Coding Quiz Challenge is a web-based application that allows users to test their knowledge of JavaScript fundamentals through a timed quiz with multiple-choice questions.
- Role: Sole author
- Tools: HTML, CSS, JavaScript, Git.

#### **| Daily Event Keeper |**

<https://github.com/prodeveloper2023/Daily-Event-Keeper>  
<https://prodeveloper2023.github.io/Daily-Event-Keeper/>

- Summary: Simple calendar application that allows a user to save events for each hour of the day. Present/current hour block shows in red, future hour in green and Past hour is in grey.
- Role: Sole author
- Tools: HTML, CSS, JavaScript, Git.

#### **| Weather Dashboard |**

<https://github.com/prodeveloper2023/Weather-Dashboard>  
<https://prodeveloper2023.github.io/Weather-Dashboard/>

- Summary: A weather app which displays the current and future(5 days) weather data through API.
- Role: Sole author
- Tools: HTML, CSS, JavaScript, JQuery, API, Git.

## **EXPERIENCE**

**Self Employed Contractor**

**July 2019- Currently (London, UK)**

**Global Intelligent Consultancy**

**London, UK.**

**Junior Test Analyst**

**August 2018 – June 2019**

- Reviewed the Business Requirement Documents (BRD) and System Requirement Specification(SRS) and developed test cases for each functional requirement.
- Performed functional testing, smoke testing, Exploratory testing, Re-testing, Responsive, end-to-end, GUI, and acceptance testing.
- Gathered requirements from Business Analysts and analysed them from a testing perspective and maintained and updated test documentation between releases.
- Performed cross browser testing to verify functionality of web applications.
- Wrote and executed SQL queries to perform the back-end testing in the driver information database.
- Incorporated SDLC life cycle through Agile and Waterfall Approach.
- Participated in stand-up meetings and other required QA meetings such as test planning, retrospective, QA status and update meetings.
- Used Jira tool in order to write test case scenarios and to execute them in order to raise bugs.
- Automated the test cases written in Jira by creating Smoke test case Suite using TestNG framework in Eclipse environment and prioritising them.
- created a Cucumber BDD Page Object model framework.

**Unique Concept Ltd**

**London, UK.**
